Readme Information

The following information describes this installation.

**IMPORTANT:****Version 2.3.7 Release Notes**

AudBase version 2.3.7 continues to extend the power of the AudBase program. It includes maintenance bug fixes and many improved features. New features in 2.3.7 include complete control of drawing for all aided and unaided soundfield types, expanded selection of standard audiogram and tympanogram print-outs, improved special relationship searches. Version 2.3.7 continues to improve data access and export functions while maintaining HIPAA compliance functions. Client-Server installations have been improved with the compilation of an integrated application.

User Information

Enter the following information to personalize your installation.

Full Name:

Organization:

The settings for this application can be installed for the current user or for all users that share this computer. You must have administrator rights to install the settings for all users. Install this application for:

- Anyone who uses this computer
- Only for me (JS ARMY)

Wise Installation Wizard (R)

Destination Folder

Select a folder where the application will be installed.

The Wise Installation Wizard will install the files for AudBase Client in the following folder.

To install into a different folder, click the Browse button, and select another folder. You can choose not to install AudBase Client by clicking Cancel to exit the Wise Installation Wizard.

Destination Folder

C:\Program Files\AudBase\

Wise Installation Wizard ...

Select Installation Type

Select the desired installation type.

Typical

The most common application features will be installed. This option is recommended for most users.

Complete

All application features will be installed. This option is recommended for the best performance.

Custom

Use this option to choose which application features you want installed and where they will be installed. Recommended for advanced users.
